"Vipingo ridge is one of those golden concepts designed and executed to perfection. It is value for money and second to none in the continent." Maasaicountry, Kenya

"Vipingo Ridge has a great feel to it. The golf course is of a very high standard and the property I stayed in was a delight. We also spent some time at the VR beach, which is a nice add-on to the facilities at the Ridge. The beach area was clean, showers available and as well as the bar staff being very attentive the security presence is obvious, but not obtrusive. In addition to playing on the golf course or relaxing at the house/clubhouse it is a great place to run and walk - the feeling of being in a secure, but not restrictive environment is apparent. It has plenty of space - even its own runway!" Phil F., United Kingdom
